BENEFITS

Shatter-resistant material to prevent damage to product and user, extremely strong and suited to demanding environments.

Door prevents unauthorised access to the equipment, and gives easy access to personnel needing to make adjustments to equipment.

Easy clean surfaces key for infection control, impact resistant edging reduces the risk of damage to vulnerable parts of the cabinet.

Sound slots provide for acoustic transfer, openings afford easy admittance for equipment cables.

Ability to fix securely to the wall, removing the chances of being knocked out of place.

Provides ample space for viewers to see the whole screen even when not sitting directly ahead.

Allows dual key holders and/or ability to store a spare key.
